ABOUT THE COMPANY

JAPE SOLUTIONS

COMPANY

JAPE was coined from the first letter of the names of the administrators of the company: (J) Jastine, (A) Angel, (P) Pamela, and (E) Erin.
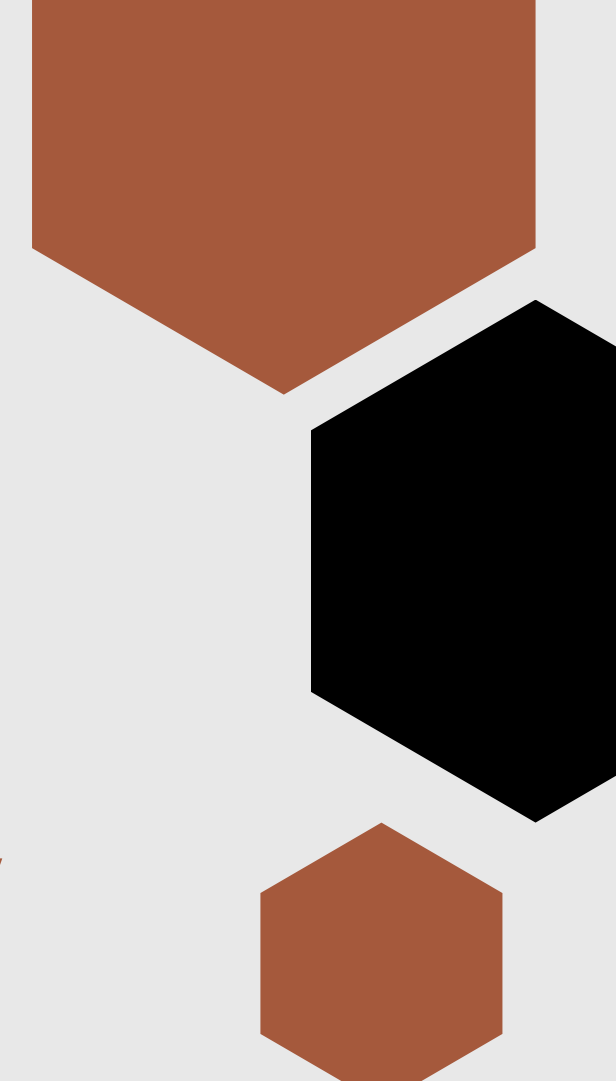

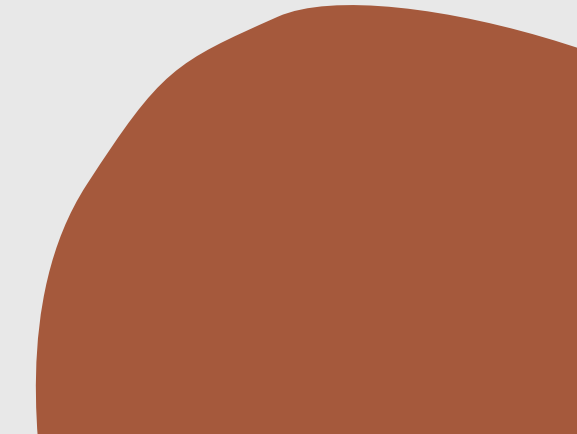

PURPOSE OF THE STUDY

- The main purpose of this employee management system is to keep track of all of the employee's data in one place.
- This program can automate and organize a variety of data, which saves both time and money.
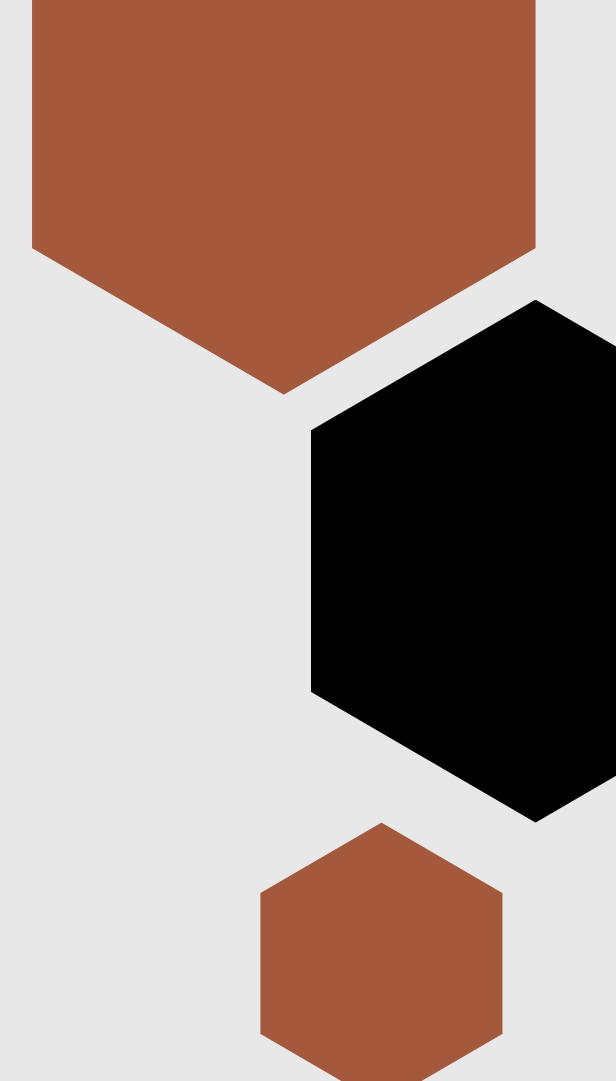

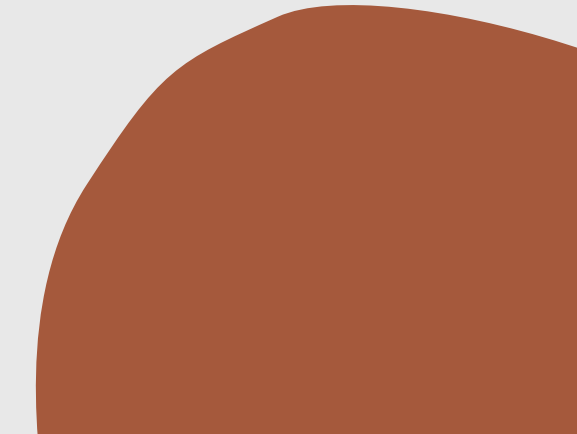

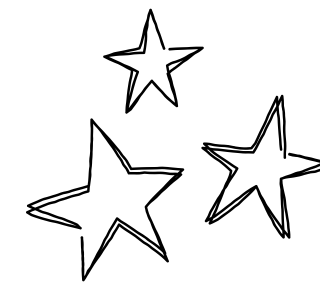

SCOPE OF THE STUDY

- Conducted within a specified timeframe, and therefore, the depth of analysis and evaluation may be limited by the available time.
- The system will be accessible only to the administrators of the company.
- It will only hold the information of the administrators.
- It will also only store information about the employee.

LIMITATIONS OF THE STUDY

- The system is limited only to the administrators and not for the usage of the employees.
- It manages employee personal data but it doesn't manage leaves of absence, and track attendance of employees.
- The administrators are the only ones who can manage the system.
- The system cannot check pay stubs, request time off, and access essential documents.

SYSTEM PRESENTATION

Thank you!
